ORDER APPROVING A NEW DEVELOPMENT SCHEDULE

APPLICATION 21824

PERMIT 14790

THE STATE WATER RESOURCES CONTROL BOARD HAVING DETERMINED THAT
GOOD CAUSE HAS BEEN SHOWN FOR EXTENSION OF TIME WITHIN WHICH TO DEVELOP
THE PROJECT PROPOSED UNDER PERMIT 14790; AND HAVING DIRECTED THAT THIS
ORDER BE ISSUED;

NOW THEREFORE IT IS ORDERED THAT A NEW DEVELOPMENT SCHEDULE BE
AND THE SAME IS HEREBY APPROVED AS FOLLOWS:

CONSTRUCTION WORK SHALL BE COMPLETED ON OR BEFORE DECEMBER 1, 1970

APPLICATION OF THE WATER TO THE PROPOSED USE SHALL
BE COMPLETED ON OR BEFORE DECEMBER 1, 1970

DATED: JAN 27 1970

K. L. Woodward
K. L. WOODWARD, CHIEF
DIVISION OF WATER RIGHTS

[For full information concerning the filling out of this form refer to Article 4 of Rules and Regulations Pertaining to Appropriation of Water]

STATE OF CALIFORNIA—STATE WATER RIGHTS BOARD

Notice of Change (Over)

Application No. 21824 Filed June 19, 1964
(Applicant must not fill in the above blanks)

at 3:24 P.M.

APPLICATION TO APPROPRIATE UNAPPROPRIATED WATER

I, Edward W. Temp
Name of applicant or applicants
of P. O. Box 5151, Reno, County of Washoe
Address

State of Nevada, do hereby make application for a permit to appropriate the following described unappropriated waters of the State of California, SUBJECT TO VESTED RIGHTS:

Source, Amount, Use and Location of Diversion Works

1. The source of the proposed appropriation is an unnamed stream
located in Sierra County, tributary to Dog Creek thence Truckee River

2. The amount of water which applicant desires to appropriate under this application is as follows:

(a) For diversion to be directly applied to beneficial use cubic feet per second, to be diverted from Beginning date to Closing date of each year.
1 cubic foot per second equals 40 statute miner's inches or 646,317 gallons per day

(b) For diversion to be stored and later applied to beneficial use acre-feet per annum, to be collected between Beginning date and Closing date of each season.
1 acre-foot equals 327,851 gallons

NOTE.—Answer (a) or (b) or both (a) and (b) as may be necessary. If amount under (a) is less than .025 cubic foot per second, state in gallons per day. Neither the amount nor the season may be increased after application is filed. If underground storage is proposed a special supplemental form will be supplied by the State Water Rights Board upon request.

3. The use to which the water is to be applied is irrigation and fire protection
Domestic, irrigation, power, municipal, mining, industrial, recreational

purposes.

4. The point of diversion is to be located S 2460' and W 2220' from junction of State line and
State bearing and distance or coordinate distances from section or quarter section corner
north boundary line of Section 7

being within the Lot 2 of N₂¹

State 40-acre subdivision of public land survey or projection thereof

of Section 7, T. 19N, R. 18E, M.D. B. & M., in the County of Sierra

5. The main conduit terminates in Lot 2 of N₂¹ of Sec. 7, T. 19N, R. 18E, M.D. B. & M.
State 40-acre subdivision of U. S. Government survey or projection thereof

Description of Diversion Works

NOTE.—An application cannot be approved for an amount grossly in excess of the estimated capacity of the diversion works.

6. Intake or Headworks (fill only those blanks which apply)

(a) Diversion will be made by pumping from Sump, offset well, unobstructed channel, etc.

(b) Diversion will be by gravity, the diverting dam being feet in height (stream bed to level of overflow); feet long on top; and constructed of

Concrete, earth, brush, etc.

(c) The storage dam will be 10 feet in height (stream bed to spillway level); 400 feet long on top; have a freeboard of 3 feet, and be constructed of earth

Concrete, earth, etc.

7. Storage Reservoir

Name _____

The storage reservoir will flood lands in Lot 2 of the N₂¹ of Section 7, T19N, R18E, MDB&M.

Indicate section or sections, also 40-acre subdivisions unless shown upon map

It will have a surface area of 2 acres, and a capacity of 10 acre-feet. If reservoir has a capacity of 25 acre-feet or more fill in the following: Diameter of outlet pipe inches; length feet; difference in elevation from spillway level to highest point of outlet pipe feet; fall in pipe feet.

~~In case of insufficient space for answers in form, attach extra sheets at top of page 3 and cross reference.~~

The size of the nozzle to be used is _____ inches.

The nature of the works by means of which power is to be developed is _____ Turbine, Pelton wheel, etc.

The use to which the power is to be applied is _____ For distribution and sale or private use, etc.

The maximum theoretical horsepower capable of being generated by the works is _____ horsepower. Second feet \times fall \div 8.8

The maximum amount of water to be used through the penstock is _____ cubic feet per second.

14. Power Use. The total fall to be utilized is _____ feet. Difference between nozzle or drift tube water level and free water surface above

The irrigation season will begin about June 1 and end about October 31.

Note.—Care should be taken that the various statements as to acreage are consistent with each other, with the statement in Paragraph 11, and with the map.

or charred acres; general crops 20 acres; pasture _____ acres; alfalfa _____ acres;

The segregation of acreage as to crops is as follows: Rice _____ acres; Alfalfa _____ acres;

13. Irrigation Use. The area to be irrigated is 20 acres.

Attach supplement at top of page 3 if necessary.

1.				
2.				
3.				
4.				

12. Other Rights. Describe all rights except those on file with the State Water Rights Board under which water is served to the above named lands.

If applicant does not own land wherein use of water will be made, give name and address of owner and state what arrangements have been made with him.

All joint owners should include their names in application and sign application at bottom of third page.

40-acre tract, describe area in a general way and show detail upon map.

Survey were projected. In the case of irrigation use state the number of acres to be irrigated in each 40-acre tract, if space permits. If space does not permit list each of all

11. Place of Use. Lot 2 of the N^o 2 of Section 7, T19N, R18E, MDRM.

Description of Proposed Use

The water will be completely applied to the proposed use on or before December 1, 1967

Construction work will be completed on or before December 1, 1966

10. Construction work will begin on or before December 1, 1964

Completion Schedule

The estimated cost of the diversion works proposed is \$4000. Give only cost of intake, or headworks, pumps, storage reservoirs and main conduits described herein.

9. The estimated capacity of the diversion conduit or pumping plant proposed is 25 gallons per minute.

Note.—It is a combination of different sizes or kinds of conduit is to be used, attach extra sheets with complete description, also show location of each clearly on map.

1,000 feet; total lift from intake to outlet 24 feet; kind steel, concrete, wood, etc.

(b) Pipe line: Diameter 6 inches; length 400 feet; grade 40 feet per

of construction Bar, rock, timber, etc.

(a) Canal, ditch, flume: Width on top (at water line) _____ feet; width at bottom _____ feet; depth of water _____ feet; length _____ feet; grade _____ feet per 1,000 feet; materials _____

8. Conduit System (describe main conduits only) Cross out two not used

7/17/68

RECEIVED NOTICE OF ASSIGNMENT TO James D Yvakiun

15. Municipal Use. This application is made for the purpose of serving _____ Name city or cities, town or towns. Urban areas only

having a present population of _____

The estimated average daily consumption during the month of maximum use at the end of each five-year period until the full amount applied for is put to beneficial use is as follows:

16. Mining Use. The name of the mining property to be served is _____ Name of claim

and the nature of the mines is _____ Gold placer, quartz, etc.

The method of utilizing the water is _____

It is estimated that the ultimate water requirement for this project will be _____

Cubic feet per second, gallons per minute. State basis of estimate

The water will _____ will not be polluted by chemicals or otherwise _____

Explain nature of pollution, if any

and it will _____ will not be returned to _____ in _____ of _____ Name stream State 40-acre subdivision

Sec. _____, T. _____, R. _____, B. & M.

17. Other Uses. The nature of the use proposed is _____ fire protection

Industrial, recreational, domestic, stockwatering, fish culture, etc.

State basis of determination of amount needed. _____ Improvements to subject property and adjoining Number of persons, residences, area of domestic lawns and gardens, number and kind of stock, type

property.

Industrial use, and unit requirements

General

18. Are the maps as required by the Rules and Regulations filed with Application? _____ Yes _____. If not, _____
Yes or No

state specifically the time required for filing same.

19. Does the applicant own the land at the proposed point of diversion? _____ Yes _____. If not, give name and
address of owner and state what steps have been taken to secure right of access thereto.

20. What is the name of the post office most used by those living near the proposed point of diversion?

Verdi, Nevada

21. What are the names and addresses of claimants of water from the source of supply below the proposed point of diversion? _____ Forrest L. Parmenter, P. O. Box 1586, Reno, Nevada

Executive Officer

STATE WATER RIGHTS BOARD

Dated: JUL 8 1965

Section 1390. A permit shall be effective for such time as the following provisions of the Water Code:

This permit is issued and permitted takes it subject to the following provisions of the Water Code:

Section 1391. Every permit shall include the enumeration of conditions herein which in substance shall include all of the provisions of this article and the statement that the permittee shall not issue a permit to whom a permit is issued unless it subjects it to the conditions herein expressed.

Section 1392. Every permittee of water to whom a permit is issued takes it subject to the following provisions in con-

ditions with this division (of the Water Code), but no longer:

Section 1393. Every permit shall include the enumeration of conditions herein which in substance shall include all of the provisions of this article and the following provisions of the Water Code:

This permit is issued and permitted takes it subject to the following provisions of the Water Code:

9. Water entering the reservoir or collected in the reservoir shall be released into the storage season shall be released into the downstream priority rights and/or extent necessary to satisfy downstream priorities under this permit.

8. Permittee shall allow representatives of the State Water Rights Board and other parties, as may be authorized from time to time by said Board, reasonable access to project works to determine compliance with the terms of this permit.

7. All rights and privileges under this permit including method of diversion, method of use and quantity of water diverted are subject to the continuing authority of the State Water Rights Board in accordance with law and in the interest of the public welfare to prevent waste, unreasonable use, unreasonable method of use or unreasonable method of diversion of water.

6. Progress reports shall be filed promptly by permittee on forms which will be provided annually by the State Water Rights Board until license is issued.

...). Complete application of the water to the proposed use shall be made on or before December 1, 1968.

1. Some changes in worn work shall be completed on or before December 1, 1967.

December 1, 1967.

3. Actual construction work shall begin on or before December 1, 1965, and shall thereafter be prosecuted with reasonable diligence, and if not so commenced and prosecuted this permit may be revoked.

7. The maximum number herein stated may be reduced in the license if investigation warrants.

This permit does not authorize collection of water to storage outside of the specified season to offset evaporation and seepage losses or for any other purposes.

1. The amount of water appropriated shall be limited to the amount which can be beneficially used, and shall not exceed 10 acre-feet by storage to be collected from about October 1 of each year to about May 31 of the succeeding year.

This is to certify that the application of which the foregoing is a true and correct copy has been considered and approved by the State Water Rights Board SUBJECT TO RESTRICTED RIGHTS and the following limitations and conditions:

PERMIT No.
